OUTDOOR LIVING

Cascade Craft

Cutting-Edge Fountains

Step into the serene realm of Ducon Outdoor Living, where nature's beauty seamlessly intertwines with masterful design. Our latest water features redefine outdoor elegance, introducing the calming cascade of water into your garden sanctuary.

Immerse yourself in the captivating allure of our Cascade Fountain Design series, each piece meticulously crafted to metamorphose your outdoor space into a haven of serenity. Infused with a passion for aesthetics and functionality, our water features effortlessly blend into the natural landscape, enhancing your garden's visual appeal.

Elevate your outdoor living area with a Ducon water feature – a design choice that transcends aesthetics, becoming a fundamental investment in human well-being. The gentle flow of cascading water is not just visually appealing; it acts as a natural stress remedy, fostering relaxation and tranquility. These soothing sounds profoundly impact mental and emotional states, providing a therapeutic escape from modern life's demands. Beyond aesthetics, the presence of a water feature nurtures a connection with nature, diminishing anxiety and enhancing overall mood. Integrating a Ducon water feature is a holistic approach, creating a sanctuary that contributes to a healthier, more balanced lifestyle.

Choose from a spectrum of sizes and Ducon stone colors, tailoring your selection to harmonize with your outdoor living space's unique character. Whether you prefer a subtle accent or a striking centerpiece, Ducon Outdoor Living offers diverse options to suit your individual taste and style.

Infinite Impressions

Flexy Fountains in Stone Craftsmanship

Beyond serving as a visual centerpiece, fountains offer a myriad of advantages, including the creation of a calming and tranquil atmosphere through the gentle sound of flowing water. Experience stress relief as the therapeutic effects of water movement contribute to a peaceful retreat from daily demands. Elevate the aesthetic appeal of your outdoor area, adding elegance and charm to your surroundings. Enjoy a subtle cooling effect during warmer seasons through the evaporation process. Foster a connection with nature as fountains attract wildlife, creating a harmonious environment. Improve air quality with the release of negative ions, contributing to a cleaner and fresher outdoor atmosphere. Increase property value with a well-designed fountain that boosts curb appeal and creates a desirable outdoor living space.

Explore the versatile "Flexy Fountains Series" by Ducon Outdoor Living, offering three adaptable layouts (Sunken, Surface, and Pillar) and four sizes (small, medium, large, extra-large). Enjoy flexibility in both placement and sizing, allowing you to customize your outdoor space with ease.

SUNKEN SMALL

One of the most popular modular waterfall designs that can be incorporated into your outdoor space for a classic-style to radiate warmth and charm. Nestled seamlessly at ground level, this modular design transforms your yard into a tranquil retreat, adding a touch of sophistication to your outdoor space.

Serenity in Style

The Grand Fountain Ensemble

Size: 230 cm x 110 cm

GRANDE

TOTAL PRICE: **AED 12,952**

Introducing the "Grande Series Waterfall," a majestic embodiment of luxury and opulence designed to grace the grand entrances of VIP homes and palaces. This grandiose fountain is not just a water feature; it's a symbol of importance and power. Inspired by the regality of a cobra, the fountain blade takes on a distinctive shape, representing strength and significance.

Crafted for those who seek to elevate their living spaces to the utmost level of sophistication, the Grande Series Waterfall is an impeccable fusion of power and serenity. Best placed in expansive entrances, whether for a grand garden or a lavish home, this fountain creates an awe-inspiring ambiance. It transforms every entrance into a statement of grandeur, where the sound of cascading water resonates with the power of opulence. Elevate your surroundings with the Grande Series Waterfall and let it be the epitome of majesty at the threshold of your luxurious abode.

SIMPLE

In the realm of outdoor elegance, meet the "Simple Series Waterfall," a design that speaks volumes through its understated yet powerful presence. As its name suggests, simplicity takes center stage, with a blade shape reminiscent of the regal Grande Series but crafted to be smaller and more refined. This minimalist design is a testament to the beauty found in uncomplicated sophistication.

The importance of the Simple Series lies in its ability to seamlessly integrate into various outdoor spaces, enhancing without overwhelming. The smaller, cobra-shaped blade delicately crowns the fountain, adding a touch of regality to its simplicity. Placed strategically, the Simple Series becomes a beacon of quiet power, elevating the ambiance of any garden or home entrance. It signifies that true elegance need not be grandiose but can be found in the harmony of form and function, making the Simple Series Waterfall an essential addition for those who appreciate the beauty in simplicity.

Fountain Enhancements

Accessorize Your Aquatic Symphony

Let us delve into the intricacies of our Ducon Modular and Unique Waterfall designs as we explore each element that transforms these fountains into masterpieces. From the enchanting Blade and structural Frames of Mesh to the refined allure of White or Black Pebbles, each accessory is carefully selected to elevate both the aesthetics and functionality of your fountain. Serving as the heartbeat, the Pump orchestrates the dance of water, while the Tank discreetly houses its life force. Architectural finesse comes to life in the A-Line and Kerbstones, framing the cascade and basin with precision. Immerse yourself in the symphony of these thoughtfully chosen components, where every part contributes to the harmonious masterpiece of your outdoor oasis.

Frame/ Mesh

An essential addition to the basin of every fountain, strategically designed to enhance both practicality and aesthetics. These mesh frames serve as discreet guardians, preventing water splashes and ensuring a tidy ambiance in your garden oasis. Available in various sizes tailored to complement the chosen fountain design, these frames seamlessly integrate into the basin, offering a functional solution to contain the cascade. Beyond their utilitarian purpose, the Frames of Mesh contribute to the overall visual appeal, adding a subtle layer of sophistication to the water feature. Embrace the seamless blend of form and function with these thoughtfully crafted frames, where practicality meets elegance to enhance the beauty of your fountain design. Outer and Inner mesh are available on the Large and X-Large setup. Small and Medium setup have only the outer mesh.

Blades

Immerse yourself in the dynamic heart of our fountain designs—the Blade. Crafted with precision from stainless steel, the Blade serves as the lifeblood, orchestrating the graceful flow of water that defines each fountain. With a variety of shapes and sizes available, these blades are tailored to complement the chosen fountain design, adding a unique touch to the cascade. The Flexi Fountains Series boasts rectangular blades, ranging in length from 20 cm to 200 cm, catering to the diverse sizes within the series. Meanwhile, the Simple Fountain design features the Cobra S blade measuring 30 x 60 cm, while the Grande Fountain design showcases the larger Cobra C blade with dimensions of 30 x 70 cm.

PUMP

Elevate the heartbeat of your fountain design with our meticulously selected pumps, the silent choreographers behind the captivating dance of water. Tailored to match the scale of each fountain, we offer a range of four pumps, each delivering a powerful performance starting from 13000L/H and beyond. Whether orchestrating the gentle cascade of a smaller fountain or commanding the grandeur of a larger design (Grande Fountain), these pumps ensure a seamless and enchanting flow. Designed with precision and reliability in mind, our pumps guarantee a continuous water display, creating a mesmerizing symphony that transforms your outdoor space into a haven of elegance and tranquility. It is advisable to note that Pillar Fountain designs do not require a pump in their functionality.

White Pebbles

The essence of nature lies in the harmony of its elements. In our outdoor living collection, we recognize the intrinsic connection between waterfalls and the earthy touch of stones. These White pebbles, carefully curated, complement the rhythmic flow of water, creating a visual symphony that resonates with the soothing beauty of nature. Whether gently lining the crown of the waterfall or scattered thoughtfully, these pebbles evoke a sense of tranquility, grounding your outdoor space in the authentic embrace of the elements. As the waterfall cascades, the White Pebbles stand as silent witnesses, completing the narrative of a serene and harmonious landscape.

Black Pebbles

Handpicked with all due care and a keen eye for detail, you'll live to cherish the allure of this naturally created and tumbled, smooth surfaced black pebble. Sufficiently complements a wide variety of outdoor landscaping options to form superb walkways, gardens, fountains among others.

A-Line Kerb

A highly versatile and medium-sized concrete curbstone for use in walkways and driveways. Optimally sized piece of ingenuity bringing together a rich black look, durability and impressive functionality. These kerbs adorn the top of the waterfall, tracing a refined edge that enhances the visual appeal of the cascading water. Additionally, they elegantly frame the edges of the water basin, adding a touch of structure and sophistication to the natural flow.

Heel Kerb

Made from durable concrete that lasts long and can bear the strain of heavy foot traffic. Patented grooves on each Heel Kerb allow individual pieces to be effectively joined giving better performance for your edging applications.

Tanks

Unveil the essential reservoir within our fountain ensemble—the versatile Tank. Tailored to match the size of your chosen fountain design, these tanks discreetly house the life force of your water feature, ensuring a continuous and enchanting flow. With a range of five different sizes available, you have the flexibility to customize the water supply based on the scale of your fountain. It is worth noting that the pillar fountain designs, seamlessly installed on pool deck edges, boast a unique feature—no separate tanks. In these designs, the pillar itself becomes the conduit, eliminating the need for an additional tank. Embrace the concealed vitality of our Tanks, where form and function unite to sustain the allure of your chosen fountain design, creating a seamless union between beauty and practicality.

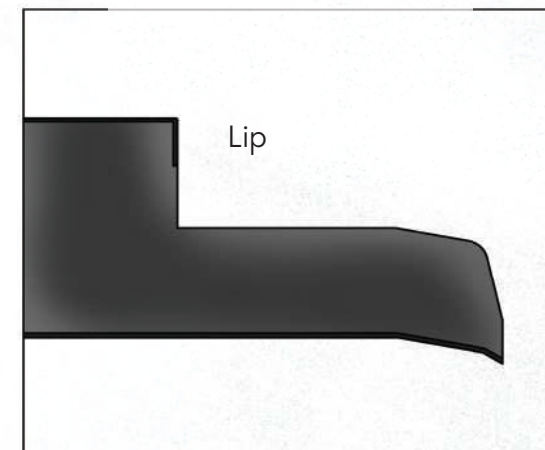

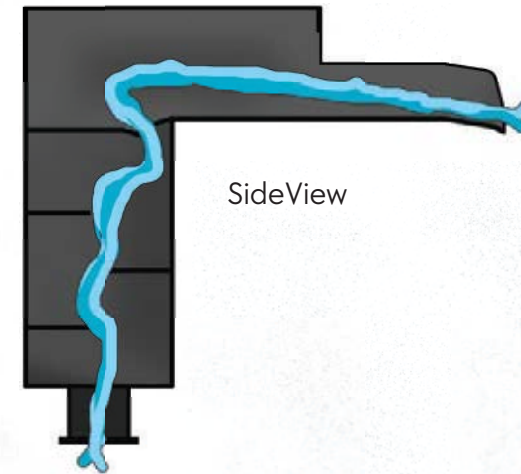

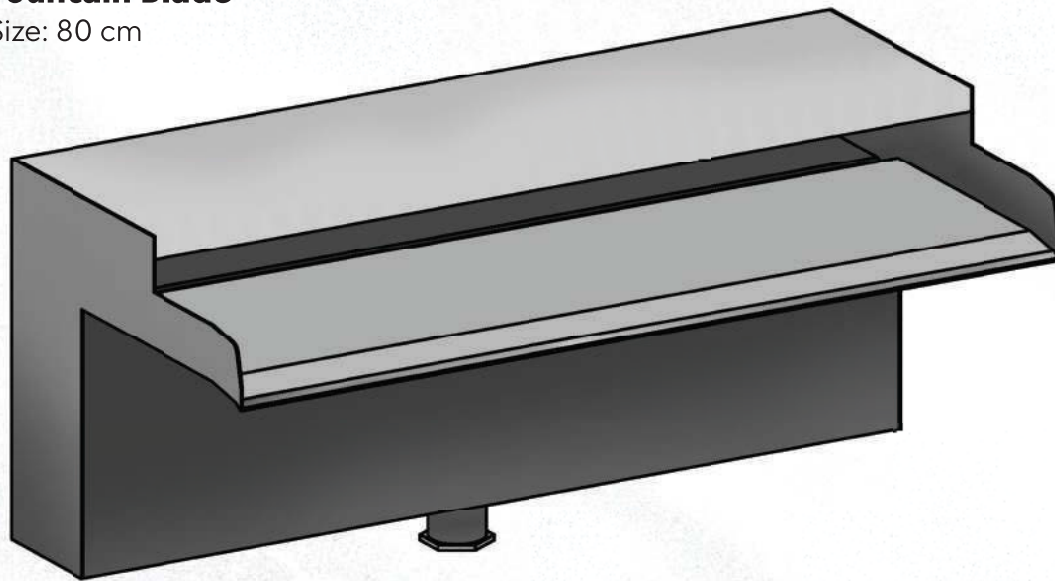

Anatomy of Elegance

Our Ducon Water Blades have been meticulously crafted from premium stainless steel. These elegant structures boast a hollow box design with a distinctive front lip. Ingeniously incorporated within the blade are specially designed baffle plates, strategically placed to expertly disperse and calm the water, preventing random splashes and potential mess. As water is pumped into the blade, it transforms into a serene sheet, gracefully flowing over the front lip. The tranquilized water then cascades into a reservoir or pond, completing the cycle as it is recirculated back to the submerged pump for a captivating water feature experience.

Fountain Blade

Size: 80 cm

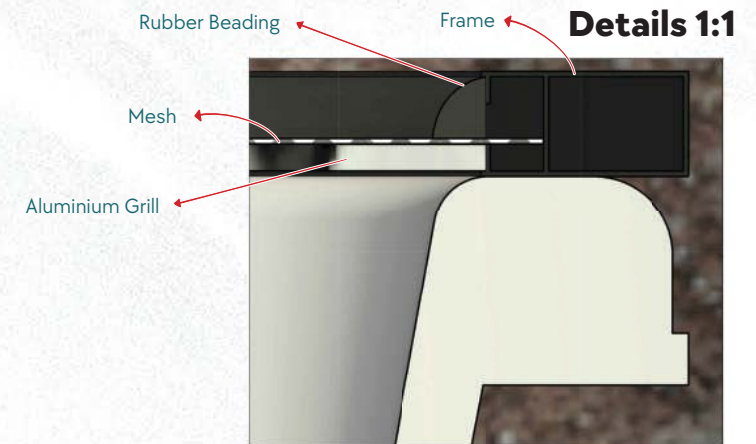

Mesh and Pebbles Section Details

Large Fountain - 1:5

Behold the meticulous arrangement within our Grande Fountain, where precision meets artistry in the placement of mesh and pebbles. A harmonious synergy unfolds as pebbles find their place, delicately sandwiched between two layers of mesh frames—the outer and the inner—capturing the essence of structural elegance. This exclusive design, showcased in the section drawing, is a hallmark feature available only in the Large Fountain, emphasizing its grandeur and uniqueness. In contrast, our smaller fountains showcase a simpler yet equally charming design, employing a single mesh frame. Here, the pebbles grace the crown of the fountain, creating a captivating visual focal point. Each size offers a distinct aesthetic, ensuring that our fountains cater to a variety of tastes and settings.

DUCON
OUTDOOR LIVING

*In the symphony of nature,
the garden's fountain conducts its own equation of beauty,
where water's dance whispers secrets of the universe.*
